

AMERICAN FENCE COMPANY

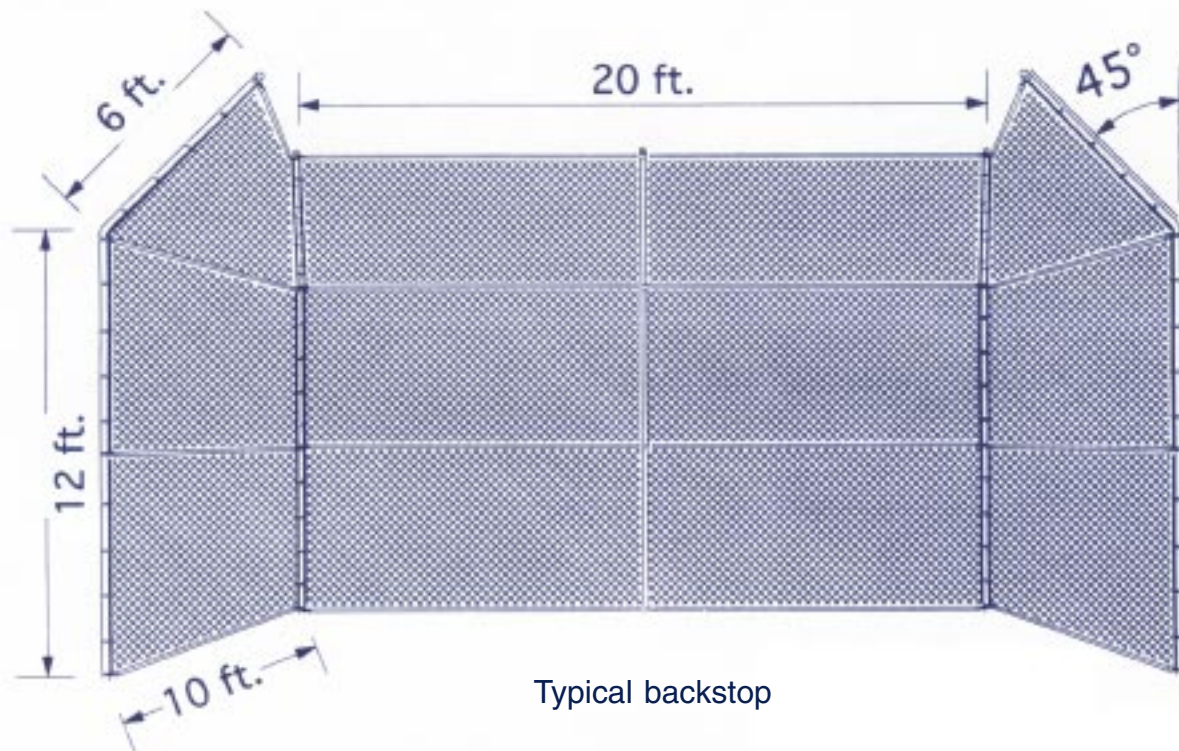

Backstops

American Fence Company Backstops are constructed with:

- Uprights are formed of 2 1/2" O.D. heavy weight, galvanized pipe.
- Cross braces are formed of 1 5/8" O.D. heavy weight, galvanized pipe.
- Chain link fabric is a heavy 9 gauge, 2" mesh, hot-dipped galvanized after weaving.
- All fittings are steel and galvanized.
- Panels are 10' wide by 6' high.
- Overhang panels are 10' wide by 6' high.

All equipment can be manufactured according to customer's specifications.

Typical backstop

Sports equipment can be permanently or temporarily installed.
