

AMERICAN FENCE COMPANY

Extruded and Bonded Vinyl Coated Fencing

In our customer's best interest, Extruded and Bonded Vinyl Coated Fencing should be ordered on a "per job basis". Because this product is a specialty item and more expensive than standard chain link fencing, ordering on a "per job basis" will enable you to only order what you need and avoid unnecessary stocking.

Just call with footage, height and type, and we will provide you with complete material cost.

Listed below is the fabric available in Vinyl Coated Fencing. All pipe and fitting sizes and types are available in vinyl coating, but not listed here.
